

Phishing Alert!

It has been brought to our attention that fake emails have been circulating, claiming to represent FEDERAL WAREHOUSE COMPANY or one of its subsidiaries. This type of scam is very common and most often aims to get products shipped on open account or by charge to stolen credit cards. They also may attempt to obtain your banking information by asking for wire transfer instructions. Please be aware that we do not send ANY unsolicited email. We only send email to established customers and vendors or in response to VALID customer service inquiries. Ignore any other email that claims to be from us. We have reported this activity to the FBI which is investigating through its cyber crimes unit.
